SUBJECT: REQUEST FOR SAFETY DATA SHEET
(SDS) FOR WOODFOLD FINISHED PRODUCTS

Thank you for your recent request for a Safety Data Sheet for one of our Woodfold product lines. I hope the following will provide you with the necessary information.

The OSHA Hazard Communication Final Rule states in Section 1910.1200(b)(6)(v) that the Rule does not apply to “Articles”. The term Article is defined in Section 1910.1200(c) as “a manufactured item (i) which is formed to a specific shape or design during manufacture: (ii) which has end use functions dependent in whole or in part upon its shape or design during end use, and (iii) which does not release or otherwise result in exposure to a hazardous chemical under normal conditions or use.”

All Woodfold Roll-Up Doors, Accordion Doors, Bookcase Door Systems, Hardwood Specialties and Custom Interior Shutter products qualify as “Articles” per OSHA’s definition. Accordingly there is no requirement to create or furnish a Safety Data Sheets for our finished products.
